INDIANER INUIT: DAS NORDAMERIKA FILMFESTIVAL [3]

Exclusivity, Personal Interaction, Competence, Educational Experience, International Flair, Future-Orientation, Investment, Potential and Perspectives

All of these things and more await you at the 3rd INDIANER INUIT: DAS NORDAMERIKA FILMFESTIVAL from 10–13 December in Stuttgart, Germany. Taking place under this year's motto **Generation Pow Wow**, this is the only film festival of its kind in Europe. In the Volkshochschule Stuttgart (Adult Education Center), films written, directed by or starring the Indian-Inuit will be shown which accurately depict their unique culture and daily existence. Captivating films that are both powerful and humorous will place the present and past in proper context; the genre 'Indian Film' will take on new and completely uncharted dimensions.

Additionally, the INDIANER INUIT: DAS NORDAMERIKA FILMFESTIVAL will present an impressive retrospective in honour of the late **Floyd Red Crow Westerman**, renowned actor, musician and story teller.
